Most of the Beneficiaries are the First-Generation Learners from their Respective Families. The Parents are mostly Daily-waged Labours, Landless Farmers, Rickshaw-pullers or Domestic Servant with a very smaller amount of Gross Family Income.

To encourage those Disadvantaged Students to continue Education, the Beneficiaries are provided Tuition Classes to enhance their Interest in the Education and to ensure their Daily Attendance in School. Thus, the Beneficiaries can complete their School Education as well as School Drop-out and Child-labour issues can be prevented.

***We are glad to share that all the Beneficiaries who are enlisted in our Project are regularly attending our Tuition Classes as well as their respective Schools. There is NOT A SINGLE DROP-OUT found in our Project during this Period.***

### ***Interrelation with Neighbor Community***

- Staff-members regularly visit the Target Villages to promote the Importance of Skill Development.
- Simultaneously, the Community get to know how Skill Development can lead to Socio-economic Development – how every Individual can earn more with the Acquired Skills.
